Manish Sharma

Baghpat U.P. | manish.sh.katha@gmail.com | linkedin.com/in/manish | github.com/manish-katha | MyPortfolio | 9027554899

Skills

Technical : C++, C, HTML, CSS, Tailwind Css, javaScript, React.Js, Node.js, Express.js, TypeScript, SQL, MongoDB, Liquid

Platform & Tools : Git, GitHub, Firebase, Firestore, Shopify, Figma

Education

Dr. Ambedkar Institute of Technology for Handicapped   Kanpur, U.P.
B.Tech. in Computer Science and Engineering -7.7 sgpa   2021 –2025

Projects

Refer & Earn   Demo
React.Js, Tailwind CSS, Node.js, Express.js, MySQL   June 2024
- Designed and implemented a 'Refer and Earn' program on a website, driving user engagement and increasing customer acquisition through strategic program design and user-friendly interface.
- Developed and implemented secure API calls for user data handling, ensuring seamless integration with existing systems and enhancing the user experience. This approach maintained data privacy and security standards while optimizing the process flow.

Quiz App   Demo
React.Js, CSS, Node.js, Express.js, MongoDB   April-May 2024
- Developed and deployed a comprehensive quiz application allowing users to create, manage, and participate in quizzes using React for frontend interactions and Node.js with Express.js for backend logic.
- Integrated real-time data processing and analytics, providing users with instant feedback and detailed performance metrics. This feature enhanced the user experience and allowed for dynamic content updates based on user interactions.

To-Do Web-App   Demo
React.Js, Node.js, Express.js, MongoDb   Feb 2024
- Engineered a user-friendly to-do list web application leveraging React for dynamic frontend interactions and Node.js with Express.js for robust backend functionalities, enhancing task organization and productivity management.
- Orchestrated secure user authentication mechanisms and seamless session management, integrating authentication protocols to safeguard user data and optimize task-tracking experiences, adhering to stringent privacy standards.

E-student Portal   Github-Repo
React.Js, CSS, Node.js, Express.js, MySQL   Dec 2023 - Jan 2024
- Engineered an e-student portal with segregated admin and student interfaces using Node.js and Express.js, facilitating efficient management of student data, timetable scheduling, and homework assignments.
- Developed a dynamic notification system that provided timely updates on schedules, assignments, and announcements. This feature improved communication and engagement by delivering real-time information tailored to the user's role, whether admin or student.

Invoice Generator   Demo
React.Js, CSS, Firebase, Firestore   June 2024
- Developed a robust bill creation system utilizing React for frontend interactivity and Firebase with Firestore for backend data storage and management, enabling seamless creation, viewing, and printing of bills or invoices.
- Engineered intuitive user interfaces and responsive designs for enhanced user experience, integrating invoice generation functionalities to streamline billing processes and optimize efficiency.

Experience

Shopify Intern-10xtech   July 2024 - present   certificate

Contributed effectively as a Shopify intern, gaining hands-on experience in e-commerce platform customization, product man- agement, and customer support, while supporting team goals and delivering solutions aligned with business objectives

Web Developer Intern-Bharat Intern   Sept 2023 – Oct 2023   certificate

Designed and developed a movie streaming web app project. Implemented a responsive web platform using a mobile first approach and user-friendly interface design.

Achievements

- 5-star rating on Hackerrank (Username: manish sh katha)
- Flipkart Grid 5.0 Level 1.1 qualifier
- Project got selected in hackothon Hack4change by Google
